

SUMMER

Updates on Summer Classes at Colourful Kids.

We are so excited about all the amazing Summer Projects we have for you!

All our Art classes are currently continuing with small group classes at our studio.

However we all know that situations can change so we want to let you know our plans so that your child can continue enjoying an awesome arty summer!

Colourful Kids @ Home

If you cannot come to us... we will come to you!

If classes in our studio cannot continue for a period this summer our regular classes and summer workshops will change to online teaching.

We have worked hard on preparing a fabulous online experience for your child this includes;

Live contact with an excellent teacher

Small groups size for quick and helpful guidance

Art packs with all required materials for each project that can be arranged for pick up or delivery

Fantastic, tailor made projects that students can make at home

Colourful Kids online classes have proven to be fun, creative and valuable. They are a very effective method that help students to keep being creative and enjoy learning opportunities.

Students have loved their online art classes, they have made some amazing art and new friends while parents have enjoyed the convenience of an art class coming directly to their home!

We appreciate your co-operation at this time. Will keep you updated with news and inform you of further arrangements as soon as possible. We are making every effort to maintain the best quality of art education for your child.

Thank you for your support
